

Occupational Therapy Assistant

curriculum code: 0665 | HEGIS code: 5210

minimum credit hours required: 64

Upon completion of the occupational therapy assistant program, the associate degree graduate will be educationally prepared to provide service to individuals having difficulties in living due to developmental deficits, physical injury and illness, psychological and social disabilities, and the aging process. The occupational therapy assistant works with and under the direction of a registered occupational therapist, and assists with the processes of client evaluation, goal setting, implementation of care, and documentation of occupational therapy services. The coursework includes a series of general education courses with an emphasis on the biological and psychological sciences. Professional studies focus on how human occupation is affected by illness and injury, and how function in life roles can be facilitated. **Program completion will require students to attend some classes on the Jamestown Campus.**
