

What would a mentor do for me?

Your JCC Peer Mentor...

- Guides you to campus services
- Helps you find information on important policies and dates
- Helps you become aware of time management strategies
- Helps become familiar with using Banner, Angel, and college email (Gmail)
- Encourages you to make wise choices that will lead you toward your goals
- Encourages you to begin thinking about your academic and career goals

Peer-2-Peer

Connecting, Challenging, Caring

JAMESTOWN COMMUNITY COLLEGE

Peer-2-Peer

JCC's **Peer-2-Peer** Mentoring program is designed to provide support and guidance to students as they adjust to college life.

We know that making the transition to college is exciting, but can also be a little intimidating and overwhelming at times.

Peer-2-Peer pairs you with a sophomore student who can provide a helping hand and valuable insights as you navigate through your first semester.

How can mentoring help me?

Research shows that students who are mentored typically have more confidence, higher grade point averages, and a higher overall satisfaction with their college experience.

A mentor is someone who can help you become familiar with campus services and develop the skills and habits of an independent, successful student.

How Do I Learn More?

As space in this program is limited, interested students should apply early by completing the enclosed application and returning it to the Counseling Center.

If you would like to learn more about the **Peer-2-Peer** Program, contact Colette Haight at 716.338.1054 or at colettehaight@mail.sunycc.edu
