TRANSFER ARTICULATION AGREEMENT

BETWEEN THE

SUNY COLLEGE OF ENVIRONMENTAL SCIENCE AND FORESTRY

and

JAMESTOWN COMMUNITY COLLEGE

August 1, 2019 — July 31, 2022

TRANSFER ARTICULATION AGREEMENT – ESF & JAMESTOWN COMMUNITY COLLEGE

STATEMENT OF UNDERSTANDING

This Transfer Articulation Agreement is designed to assist Jamestown Community College (JCC) faculty and staff in advising students on proper course selection to maximize transfer credit to the SUNY College of Environmental Science and Forestry (ESF) Syracuse campus or The Ranger School campus in Wanakena.

Students who wish to transfer to ESF may apply to one of the 23 bachelor degree programs at the Syracuse campus or one of the three associate degree programs at The Ranger School in Wanakena, NY. Bachelor of Science (B.S.) programs include Aquatic and Fisheries Science, Biochemistry, Bioprocess Engineering, Biotechnology, Chemistry, Conservation Biology, Construction Management, Environmental Biology, Environmental Education and Interpretation, Environmental Health, Environmental Resources Engineering, Environmental Science, Environmental Studies, Forest Ecosystem Science, Forest Health, Forest Resources Management, Natural Resources Management, Paper Engineering, Renewable Materials Science, Sustainability Management (on-line only), Sustainable Energy Management and Wildlife Science. The program in Landscape Architecture leads to a Bachelor of Landscape Architecture (B.L.A.) degree. Students may also transfer to The Ranger School campus to complete the second year of the Associate in Applied Science (A.A.S.) degree in Environmental and Natural Resources Conservation, Forest Technology, or Land Surveying Technology.

Students planning to transfer to ESF should follow the recommended course requirements for their intended program of study as outlined in the ESF/JCC Transfer Articulation Guidelines. They should seek transfer counseling from a designated JCC faculty or staff member or an ESF Admissions Counselor for proper course selection, which varies by program of study. The ESF/JCC Transfer Articulation Guidelines are available at <http://www.esf.edu/admissions/transfer/tags/james.htm>. The ESF Admissions Office will update this agreement on-line as changes occur to the programs of study at either institution, and will promptly notify the Transfer Articulation Coordinator at JCC of any such updates

Admission to the associate degree programs at The Ranger School will be granted to students who have a 2.5 cumulative grade point average or higher and have completed all pre-requisite first-year courses as outlined in the ESF/JCC Transfer Articulation Guidelines. Students will have the opportunity to complete their A.A.S. degree in two semesters at ESF. Special admission consideration may be granted for students below a 2.5 grade point average and/or who are missing some of the required first-year courses on a case-by-case basis. JCC students or faculty advisors should contact the ESF Admissions Office directly to discuss these and other special admission circumstances.

Guaranteed admission to the bachelor degree programs at the Syracuse campus of ESF requires a 2.8 cumulative grade point average or higher and completion of at least 60 credits from among the courses listed in the Transfer Articulation Guidelines for the intended ESF degree. Guaranteed admission to all engineering programs at ESF is more competitive and students must have a minimum 3.0 cumulative grade point average. Students who follow the Transfer Articulation Guidelines will typically enter ESF's Syracuse Campus with full junior class status, and will have the opportunity to complete their B.S. degree in four semesters or their B.L.A. degree in six semesters at ESF. Students can transfer toward meeting degree requirements for their intended ESF program of study all JCC recommended course requirements as outlined in the ESF/JCC Transfer Articulation Guidelines. At least 24 of the last 30 credits required for the ESF degree must be completed through ESF.

Students who are not able to complete all prerequisites prior to their desired semester of enrollment, or whose grade point average is below the minimum specified, may still be considered for admission on a case-by-case basis.

Students must achieve a grade of "C" or higher in order to transfer course work. Grades of less than "C" do not transfer. Students must submit the application for admission and all credentials by the published recommended filing deadline for the semester they intend to enroll. Applications submitted after the recommended deadline will be considered on a space available basis.

Students should consult an ESF Admissions Counselor if they have any questions regarding program of study requirements, transfer application process and criteria, or this agreement at 1-315-470-6600.

This agreement is in effect until July 31, 2022.
