- Students who withdraw their registration from any or all classes shall be liable for payment of tuition and fees, and are eligible for refunds according to the following schedule:

	tuition liability	reduction of tuition charges
Prior to the first day of classes	0%	100%
1st week of semester tuition and fee liability begins	25%	75%
2nd week of semester	50%	50%
3rd week of semester	75%	25%
4th week of semester and later	100%	0%
- Students participating in drop/add procedures during the first week of classes will not be assessed charges for dropped classes required for course schedule changes.
- Students who wish to withdraw from an individual course complete the Individual Course Withdrawal form on the Registrar's Office webpage. Students who wish to withdraw from all of their classes begin the process with the Counseling and Career Center. Students should consult with the financial aid and business offices *before* they stop attending classes or officially submit their withdrawal.
- All refunds are based on the date withdrawal forms are completed and filed with the registrar's office. Exceptions to this policy will be considered under extenuating circumstances.
- Students who receive Title IV aid (Pell, SEOG, Direct loans) and withdraw from all classes may have their awards reduced and will be responsible to repay any aid disbursed that they are subsequently ineligible to receive. Refunds are paid in the following order: Federal Direct Loans (subsidized and unsubsidized), PLUS Loans, Pell, SEOG Grants, required refunds of other federal, state, private, or institutional assistance, to the student.
- International students will be charged a fee to ensure they have appropriate health insurance coverage, which includes repatriation. This charge can be removed if the student completes the proof of health insurance waiver process.

CERTIFICATE OF RESIDENCE

To be eligible for New York state tuition rates, students must submit a certificate of residence issued by the county in which they reside no earlier than 60 days prior or 30 days after the start of class(es). Without a certificate of residence, the out-of-state tuition rate will be charged. The certificate of residence form and instructions are available at <https://www.sunyjcc.edu/experience/support/business-office/certificate-residence>.

PAYMENT PROCESS FOR ALL STUDENTS

After you have registered for your classes, please visit <https://banner.sunyjcc.edu>. You must first complete your financial responsibility agreement before you will be able to view your current semester charges. You are responsible for accessing your bill which is available on demand via Banner self-service account. **JCC will not mail you a schedule bill.** If you:

- Expect financial aid funds that you are eligible to receive, they will be applied to your student account after registration.
- Need to pay your bill:
 - You may pay for classes by check or money order at any of the business offices. To pay using a bank account or a credit/debit card, or sign up for the payment plan go online to <https://banner.sunyjcc.edu>.
 - If payment is not received, your account will be placed on hold and assessed a late fee.

MAINTAINING ELIGIBILITY FOR FINANCIAL AID

Students enrolled at JCC are eligible to participate in a wide range of federal, state and institutional grants, scholarships, loans, and work-study programs. Students must be accepted and matriculated by the JCC admissions office and meet academic eligibility criteria to receive awarded funds. Start the application process for all sources of aid by filing the Free Application for Federal Student Aid (FAFSA) at <https://studentaid.gov/>. For more information on federal and state financial aid resources, visit the websites for the U.S. Department of Education, Federal Student Aid at www.studentaid.ed.gov, New York State Higher Education Services at www.hesc.ny.gov, and Pennsylvania Higher Education Assistance Agency at www.pheaa.org. In addition to meeting financial and academic eligibility requirements, students must meet federal and state citizenship and residency requirements and must not be in default of a federal student loan or owe a repayment of other federal student aid to receive awarded funds.

Students are encouraged to apply for funds from outside sources as well, such as private grants and scholarships, employee reimbursement plans, state vocational rehabilitation programs, Native American aid, veteran's benefits, and workforce development and re-training programs. Learn more about financial aid opportunities at JCC at www.sunyjcc.edu/admissions/financial-aid.

The following fees are mandatory and are not refundable after drop/add period:

Student Activities Fee

- Faculty Student Association (FSA) Fee \$12.50/credit hour, up to 11 credit hours
 \$180/semester Flat Rate for all Full-Time students, 12 credit hours or more

- Health Services Fee (*on-campus students only*) \$4.25 per credit hour
- Learning Network Fee (*all students*) \$6.00 per credit hour
- Technology Fee (*all students*) \$11.00 per credit hour
- Laboratory/Studio Fees (*specified courses*) varies \$10-\$250

College Fees

- College Processing Fee (*one-time fee payable upon admission to JCC*) \$85
- Official Transcript Fee starting at \$8.50
- Late Payment Fee \$50
- Placement Test Retesting Fee \$10
- Returned Check Fee \$30 per check

ADVISEMENT/REGISTRATION

REGISTRATION PROCEDURES

Currently Enrolled Full-Time Students: Student advisement dates can be found on the Advisement page here: www.sunyjc.edu/advisement. Schedule changes are processed during the drop/add period (dates for each semester are located on page 1). Students can print a copy of their schedule by signing into Banner at <https://banner.sunyjc.edu>, or by visiting the Student Services Center on the Cattaraugus County Campus, the registrar's office on the Jamestown Campus, or the main office on the North County Center.

New Students and Readmissions: Apply for entrance to the college through the admissions office or at www.sunyjc.edu. Click on the admissions link. The admissions office will inform you about advisement and registration procedures.

Part-Time Students: Part-time students with 30 or more degree hours are encouraged to seek advisement from a full-time faculty member or counselor. Part-time students must follow the placement test policy. If you are a current JCC student and wish to register as a part-time student, please note that you can register through Self-Service Banner. If you are a visiting student, you can register part-time by completing a registration form, available on the Registrar's webpage at <https://www.sunyjc.edu/experience/support/registrar>.

Adding a Course: Students who wish to add courses must do so prior to the end of drop/add week and prior to the first class for late starting courses. Any additions after these dates require the instructor's permission. Permission cards are available at the registrar's office on the Jamestown Campus, the Student Services Center on the Cattaraugus County Campus, and the main office of the North County Center. Students may also request permission from instructors, via email, then forward approvals to Registrar@mail.sunyjc.edu immediately if permission to join the course is granted. Students who wish to add courses must do so before the end of the drop/add period. Students are strongly encouraged to connect with instructors for courses that have already started to obtain course information. Full-time students can make changes to their schedule through SSB by using their alternative PIN, obtained during advisement.

Viewing Your Bill - Financial Responsibility Agreement (FRA): Registering for classes creates a financial obligation to the college. Registered students are required to view their bill and acknowledge their charges. If this is not completed it will result in the student being dropped from all registered classes. You can view your bill by logging in to self-service Banner at <https://banner.sunyjc.edu>. If you are under 18, a [paper form](#) must be signed by you AND a parent signature is also required. You can find the form to print on the JCC website here <https://www.sunyjc.edu/sites/default/files/Bus-FRA-fill.pdf>. Complete the form and submit to the business office.

Paying Your Bill: Once registered, students may access their bill online immediately after registration. To ensure class registration is not cancelled, each student must view their bill agreement. Student bills may be paid online in full or in installments at <http://mycollegepaymentplan.com/Jamestown>. If payment is not received, your account will be placed on hold and assessed a late fee.

Withdrawing From a Course(s): Visit <https://www.sunyjc.edu/programs/academic-resources> for semester specific withdrawal deadlines. Students must discuss withdrawing from a course with their instructor and advisor, then complete the Individual Course Withdrawal Form, available on the registrar's webpage at sunyjc.edu. If you begin the semester, then decide that you must withdraw from all courses, visit <https://www.sunyjc.edu/experience/support/registrar/total-withdrawal> and begin the process with the Counseling and Career Center. **Please refer to withdrawal dates and liability on page 4. Withdrawals beginning after the first day of the semester will result in liability of your tuition and fees.**

ADVISEMENT NOTES

- Full-time students are required to see their advisors to review their academic progress and to discuss courses for the upcoming semester. Part-time students are also strongly urged to seek advisement.
- When you meet with your advisor, review your educational-vocational plans and academic progress. Discuss degree and graduation requirements. It is ultimately the student's responsibility to learn and know the graduation and program requirements for the degree being sought and to monitor progress toward fulfilling those requirements.
- Access your student transcript at <https://banner.sunyjc.edu>. Use the college catalog and DegreeWorks Evaluation to identify program requirements. Prepare a tentative course schedule prior to your advisement session.
- If you are changing your program of study, catalog term, and/or your advisor, you must complete a change form. Advisor/Program change forms are available online at www.sunyjc.edu/advisement and in the Student Records menu of your Banner account.
- Students with financial obligations to the college may be denied registration for additional credit and non-credit courses until satisfactory arrangements are made. Students should review their accounts with the financial aid or business offices before scheduling advisement appointments.
- Students are responsible for making sure their course selection meets financial aid guidelines.

PLACEMENT TEST INFORMATION

Math and English placement is based on high school GPA and additional success indicators. This helps determine the courses in which the student is best prepared to begin. Students without a GPA through the junior year of high school will take a computer-based math and reading test. Students wishing to challenge their English or math placement may choose to take the English and/or math placement test.

If you have a disability and require accommodated testing, contact the Accessibility Support Services coordinator at each site.

To register for a placement test and/or to see a list of exemptions, go to www.sunyjc.edu/placementtesting or call:
Cattaraugus County Campus: 716.376.7508
Jamestown Campus: 716.338.1065
North County Center: 716.363.6500

ACADEMIC INFORMATION

Additional Grades: Consult the college catalog for details about the incomplete (I), credit (CR), audit (AU), special audit (SA, SW, SX), official withdrawal (W), and administrative withdrawal (X) grades.

Imputed Credit: The faculty and administration have determined that some courses listed in this master schedule may not be counted toward degree programs offered by the college. These are courses which are not at the college level, but are designed as remedial courses for students who need to prepare themselves for college-level work. Eligible students enrolled in courses carrying imputed credit may receive financial aid.

Attendance: Every student is expected to attend all lecture and laboratory sessions for which he or she is registered. Absences will be recorded by instructors, and the student will be held responsible for making up all work missed. Attendance requirements for each course are established by the instructor and announced, published, and distributed with the course outline at the first class meeting.

Participation in Online Courses: Online students must begin their course the week it is scheduled to begin. Students are expected to log in to their course three-four times per week. Participation requirements are set by the instructor and published in course information documents. More information is available at www.sunyjc.edu/academics/online-learning.

Retention and Graduation Rates: A study of the 700 students who enrolled as first-time full-time students at JCC in fall 2018 indicated that 35% had graduated by the beginning of the fall 2021 semester. An additional 13% had transferred to other colleges prior to graduation and 6% were still enrolled. A recent survey of 2020 graduates indicated that 41% of those responding had transferred to four-year colleges or universities and 44% were employed full time. (Sources: Materials from Jamestown Community College Office of Institutional Research and the 2019-2020 graduate follow-up survey). It should be noted that some students "stop out" for a semester or two due to family, work, or financial considerations, but eventually return to complete their educational programs. Some students leave college before receiving their degrees because they have obtained the necessary skills for employment or have otherwise met their educational goals by attending JCC. Additional information about JCC graduates is available at <http://www.sunyjc.edu/about/facts-figures>.

COURSE REQUIREMENTS

Students who have completed pre-/corequisites with a passing grade at another institution must provide a copy of their unofficial transcript at the time of registration. Terms used in course requirement information in the master schedule:

- **PREREQUISITE:** A course or other requirement that must be completed prior to enrolling in another course.
- **COREQUISITE:** A course or other requirement that must be completed during the same semester as another course.
- **ELIGIBILITY:** Refers to an academic readiness to take certain courses through successful completion of previous coursework or placement testing.
- **PERMISSION OF INSTRUCTOR:** A course with this notation requires the student to meet with the instructor to receive permission to take the course.

WAIVER OF PRE-/COREQUISITES: If a student feels qualified to take a course for which he or she does not appear to have the formal requisite background, the student should contact the instructor of the course. If, in the estimation of the instructor, the student meets the requisites in some other way, the instructor may sign an instructor's permission card which the student can then present to the Registrar's Office on the Jamestown Campus, the Counseling and Career Planning Center on the Cattaraugus County Campus, or the Main Office on the Dunkirk Campus. In the absence of the instructor, the waiver may be signed by the discipline coordinator/director, or dean. The Registrar's office will also accept requisite waivers and special permission to register for specific courses via email at Registrar@mail.sunyjc.edu, provided proof that the appropriate permission is received. Students cannot register for courses for which they do not have a pre-/Corequisite, a signed waiver form, or an email permitting registration.

SPECIAL STATEMENT REGARDING SEQUENTIAL COURSEWORK: In the case of sequential coursework (i.e. math and English) where the student's entry point may be determined by way of a placement procedure or successful completion of other coursework in the sequence, a student will have met a prerequisite or corequisite for a course in the sequence if they are eligible to register for a higher level course for which the current course is a prerequisite. That is, if a student is eligible to take course C in a sequence (where course A is a prerequisite for course B, and course B is a prerequisite for course C), the student has met pre- or corequisites for both course A and course B.

COURSE SCHEDULE TERMINOLOGY

BLDG	Building in which course meets	INSTRUCTOR(S)	Name of instructor
CMP	Campus location	RM	Room in which course meets
CRSE	Catalog number: numerical classifications for course areas	SBJ	Abbreviation of the name of the academic discipline

FEE	Additional cost to student for materials, equipment, etc. for a specific course		(U = Sunday; R = Thursday)
IM	Instructional method		

JCC SCHEDULE MODE DEFINITIONS

Note - FLEX Courses (F01, F02, and F03) are noted with an “F” in the instructional Mode. FLEX courses may provide students with the opportunity to meet in person on the campus listed on the synchronous days and times already scheduled, if conditions allow.

Asynchronous (at times you choose)

- **Asynchronous Online** - Classes are completed via Blackboard, the college's web-based learning management system, from any location that has internet access at times that you set for yourself. Students are expected to complete assignments by deadlines set by the instructor. You must be able to access the internet through a device equipped with speakers. (002)
Instructional Mode
 - 002 – Asynchronous Online
 - F02 – FLEX Asynchronous Online with the opportunity to meet in person on the campus and times listed, if condition allow.

Synchronous (live instruction)

- **Synchronous Online (Zoom)** – Classes are completed live using Zoom or a similar web-based interactive video platform from any location that has internet access in real time according to a pre-set schedule. You must access the internet through a device that has both a camera and speakers. Specific meeting times for synchronous portions of classes are listed with each course. (001 & F01)
Instructional Modes
 - 001– Synchronous Online (Zoom)
 - F01 – FLEX Synchronous Online (Zoom) with the opportunity to meet in person on the campus listed, if conditions allow.
- **In person** - Classes meet in person on the campus listed or other approved location. (000)
Instructional Modes
 - 000 – In person

Asynchronous/Synchronous (Hybrid) – Instruction offered partially asynchronously online and partially synchronously online or in-person.

- **Hybrid: asynchronous online & synchronous Zoom** – Class requires both asynchronous online learning and synchronous online meetings via Zoom or other resource. Specific meeting times for synchronous portions of classes are listed with each course. (003) & (F03)
Instructional Modes
 - 003 – Hybrid – asynch online & sync zoom
 - F03 – FLEX Hybrid – asynch online & sync zoom with the opportunity to meet in-person on the campus listed, if conditions allow.
- **Hybrid: asynchronous online & in person** – Class requires both asynchronous online learning and in person meetings. Specific meeting times and locations for in person portions of classes are listed with each course. (004)
Instructional Modes
 - 004 – Hybrid – asynch online & in person
- **Hybrid: synchronous Zoom & in person** – Class requires both synchronous online meetings via zoom and in person meetings. Specific meeting times and locations are listed with each course. (005)
Instructional Modes
 - 005 – Hybrid – synch Zoom & in person

ONLINE COURSES

As noted above, JCC offers online courses in asynchronous, synchronous, and hybrid modes. Familiarize yourself with the mode options or consult your advisor prior to selecting courses.

BEFORE CHOOSING AN ONLINE COURSE

- You must have a reliable Internet connection, computer access, and a valid email address. High speed access is highly recommended, but not required. Mobile devices are not recommended as the primary means to take an online course.
- Online courses rely heavily on reading, writing, and engaging in online discussions.

HOW DOES ASYNCHRONOUS ONLINE LEARNING WORK?

Courses follow a regular semester schedule with assignments due each week. Courses have specific starting and ending dates which must be followed. JCC recommends that you log in and participate 3-4 times a week to complete assignments and activities, as well as interact with your professor and classmates. During the week, you log in on days and times convenient to you. You participate in the course by reading the required textbooks and online material, asking questions, posting discussion responses, submitting assignments, or taking quizzes as required by each professor. Textbooks are required and can be purchased from the college store web store: <https://sunyjcc.bncollege.com> at least one week prior to class start date. Your professor posts information that explains requirements, expectations, the course schedule, and how you are evaluated.

Asynchronous online courses are offered on Blackboard, JCC's learning management system.

1. Access your courses by selecting the My JCC link at www.sunyjcc.edu
2. Select courses – Blackboard
3. Follow the login directions
4. Complete the Student Orientation found under the Home tab; then click on the Orientation tab
5. On the Home tab, select your course from the My Courses module

Your online course is available one week prior to scheduled start date. Login at that time and verify your ability to access the course.

If you cannot find your course online or have problems logging in, immediately contact the JCC Help Desk at jcchelpdesk@mail.sunyjcc.edu or 1.800.388.8557, ext. 1122. **It is your responsibility to start class on time.**

You have a JCC email account for official college communications. Access it at <http://www.sunyjcc.edu/myjcc> and select Google Account/Email.

SUNY GENERAL EDUCATION REQUIREMENTS

WHAT ARE THEY?

The SUNY General Education Requirement (SUNY GER) is the 30-credit requirement for all SUNY baccalaureate, A.A., and A.S. degree recipients, which supports academic excellence as well as student choice, mobility and degree attainment by expecting students to demonstrate achievement of SUNY-wide learning outcomes.

Students matriculating in fall 2015 or after and who graduate with an A.A. or A.S. degree **must** complete 30 credits of SUNY General Education courses that are distributed among at least seven of the 10 SUNY content categories. Mathematics and Basic Communication must be among the seven categories. (Students matriculating into the A.S. Engineering Science degree must complete 30 credits of SUNY General Education courses that are distributed among at least **five** of the 10 SUNY content categories.)

Students matriculating between fall 2010 and spring 2015 were encouraged to complete 30 credits of SUNY GER courses in at least seven of the 10 SUNY content categories, but were not required to do so.

HOW CAN I BE SURE IF MY COURSES ARE GOING TO MEET THE SUNY GENERAL EDUCATION REQUIREMENTS?

Use the checklist to identify JCC courses that meet requirements for each of the General Education categories. Meet with your advisor or a counselor to review these courses as they apply to the SUNY General Education Requirements.

HONORS PROGRAM

JCC's Honors Program provides challenging curriculum, supportive services, and special enrichment opportunities for highly motivated students who have demonstrated their academic ability. Honors students enroll in special honors-designated courses, engage in co-curricular activities, and complete projects that synthesize academic and real-world experiences. Students who complete the honors program requirements receive an honors citation on their transcripts along with other special graduation recognition and student privileges.

Honors courses are developed by faculty who are dedicated to providing additional rigor and support for honors students. The courses must have the following attributes: a focus on greater depth and breadth of subject matter; an interdisciplinary approach; strong attention to writing and critical thinking; and a strong focus on values and ethics.

New students with a 90% high school average who are eligible for MAT 1540 are eligible for the Honors Program. Returning students who are eligible to take a college-level English without support courses and MAT 1540 and have a GPA of 3.5 or better after 12 credit hours are honors eligible.

To earn JCC's honors citation students must successfully complete a three-credit hour **honors symposium course** as well as two one-credit hour honors project courses. The symposium course allows students to approach a global topic from diverse perspectives.

Honors students are required to successfully complete two one-credit, **project-based honors courses** which are related to courses in which they are currently enrolled or have recently completed. Each project must include some form of applied learning: fieldwork, internship, service learning, innovative/ creative project, and/or undergraduate research. After registering, you will be guided by the honors program coordinator and your advisor to identify a course to which to link the project. Students then work directly with faculty members to design projects that fit their interests and goals. Visit www.sunycc.edu/programs/honors/courses for project requirements and ideas.

For more information, contact Angela Raynor, honors program coordinator, at honors@mail.sunycc.edu or 716.338.1243.

3747	ANT 2014	3	Honors Symposium: Herbs & Snake Oils	Palmer, F	Asynchronous Online	8/22	12/16
------	----------	---	--------------------------------------	-----------	---------------------	------	-------

Course Description:

Students will explore the relationships between human beings and the plants, animals, and minerals in our quest to seek wellness, health, and harmony. From the herbal and natural remedies of trained practitioners and the highly regulated pharmaceuticals developed from flora and fauna to the pushers of snake oils and street drugs, this course will explore the worldviews that influence who has authority to diagnose, produce, sell, and consume which substances in relation to maintaining health. Students will be challenged to take a critical look at the history of natural medicines, prohibitions, classification systems, and the legalization of controlled substances in the United States and abroad. Students will answer some of the following questions: What is the difference between drugs and medicines? Why do people self-medicate? What is the global impact of drugs? and What economic, environmental, and sociological impacts do drugs and medicines have on communities and individuals? Topics include Indigenous Knowledge Systems, trafficking, the global war on drugs, addiction, self-medication, health, homeostasis, informal economies, cultural capital, cultural supremacy, commodification, worldview, taboos, scared, herbs, and ecological resources.

Course Description:

Students will understand how different kinds of information are presented to the public. We live in a world that increasingly takes data at face value, and treats anyone presenting information as an expert. This course helps students to understand basic statistical concepts in order to analyze whether information is presented correctly and in good faith. Students will engage in ongoing analysis of data presented in a number of ways, including print media, television and online media, and social media. The prevailing theme of ethics in statistics and media will be of utmost importance.

COURSE REGISTRATION PROCESS

Whether you're pursuing a degree or certificate program, or just taking a class or two, the staff and faculty at JCC are committed to helping you with your journey. Please select one of the following options:

- [Apply to JCC as a new student](#): If you're interested in earning a degree or certificate at JCC, learn more about the application process and any special steps. An advisor will help you register for classes once you're accepted.
- [Register for courses as a current student](#): If you're a current student at JCC and ready to register for courses, contact your advisor or the Counseling and Career Center.
- [Register for an individual course \(without pursuing a program\)](#): If you're interested in taking a course or two (without earning a degree or certificate), and you're not a current JCC student, complete the registration forms located under Forms on the [Registrar's Office webpage](#). **Please note**, if course requisites were completed at another institution, you will be asked to provide an unofficial transcript as proof that they were met. Otherwise, instructor permission is required.

ACCEPTED FULL- AND PART-TIME DEGREE SEEKING STUDENTS:

Students who plan to attend JCC full-time (12 credits or more) meet with an advisor and are registered for courses outlined at [Next Steps](#). Students who plan to attend JCC part-time while earning a degree are also encouraged to apply and review the [Next Steps](#) checklist.

PART-TIME NON-DEGREE SEEKING STUDENTS:

If you are a part-time student planning to take between 1-11 credit hours and do not plan to earn a degree at JCC, or receive financial aid, submit the following required information:

Certificate of Residence

Please review the website for your counties specific instructions: <https://www.sunyjjc.edu/experience/support/business-office/certificate-residence>.

Course Registration Form

Complete the course registration form located on the registrar's office webpage: <http://www.sunyjjc.edu/registrar>. You will receive an email from the registrar's office within 1-3 business days with your Self-Serve Banner user name (J-number) and six-digit PIN. If you are missing prerequisites or the course you are seeking is full, the registrar's office will provide additional instructions.

IMMUNIZATION & MENINGOCOCCAL DISEASE INFORMATION

According to New York State Public Health Law (NYS PHL) §2167, JCC is required to maintain a record of the following for each student: **A response to receipt of meningococcal disease and vaccine information** signed by the student or student's parent or guardian. This must include information on the availability of meningococcal meningitis vaccine **and** either 1) **a record of meningococcal meningitis immunization** within the past 5 years, or 2) **an acknowledgement of meningococcal disease risks and refusal of meningococcal meningitis immunization** signed by the student or student's parent or guardian.

Complete JCC's Certificate of Immunization/Acknowledgement of Meningitis Information form, available at the JCC health center on the campus you are attending or downloaded from www.sunyjjc.edu. *According to New York State Public Health Law, no institution shall permit any student to attend the institution in excess of 30 days without complying with this law. The cost of the vaccine may be covered by the individual's health insurance policy.*

To learn more about meningitis and the vaccine, contact the JCC health center and/or your physician. Additional information about the disease is available at the New York State Health Department (www.health.state.ny.us), the Centers for Disease Control and Prevention (CDC) (www.cdc.gov/ncidod/dbmd/diseaseinfo), and the American College Health Association (ACHA) (www.acha.org).

Students born on or after January 1, 1957: New York State Public Health Law 2165 requires post-secondary students attending colleges and universities to demonstrate proof of immunity to measles, mumps, and rubella. This law applies to anyone born January 1, 1957 or later who is taking six or more semester hours. Failure to do so will result in suspension and a \$25 fine.

Acknowledgement of Meningitis Information form should be signed by a physician, unless you are attaching other legal proofs such as school records or county clinic records. For questions regarding immunizations, contact the campus health center at the site you are attending:

SUNY Vaccination Policy

Following the FDA approval of the Pfizer COVID-19 vaccine, current SUNY policy requires all students accessing SUNY facilities in-person to be fully vaccinated against COVID-19 and receive booster shot when eligible, with limited exception.

INQUIRE COURSES

Things in the real world don't often fit inside the neat boxes of academic subjects. Why should all of your classes?

Inquiry courses explore compelling questions from fresh angles, bringing together different disciplines, perspectives, and types of evidence. Designed for first-year students, they also help you navigate the ins and outs of college, and are required for all new students entering degree programs.

Inquire: The Art of Adulthood CRN 3710

What does it mean to be an adult? That depends on where you live and who you ask. Even Google won't provide an easy answer. The concept of adulthood has changed over time, which can make responsible adulthood seem like a moving target. This course will explore some fundamentals of coming of age such as career and educational planning, budgets, financial planning, managing a household, taking care of your mental and physical health, and being an engaged citizen. We'll seek to answer timeless questions such as "How am I going to pay for that?" while identifying tools and resources that students can use to make a plan to win at adulthood.

Inquire: Art of Mathematics CRN 3689

Mathematics and art have long been intertwined. From sacred geometric symbols dating back thousands of years to modern-day mathematicians using crochet to visualize complicated topological spaces, mathematics has bred creative endeavors, and many creative endeavors have their foundation in mathematics. In this course, we will investigate those connections through topics such as how to "weave" an invisible carpet; why engineers find origami useful; and what daisies, the irrational number phi, and Leonardo Da Vinci have in common. Students will also discover their own connections as they exercise their creative talents. No special mathematics skills are required beyond curiosity and an open mind!

Inquire: Artificial Intelligence CRN 3684

"Hey SIRI, what will my career area look like in 5, 10, and 20 years?" The continual development, refinement, and implementation of artificial intelligence (AI) is a disruptive force increasingly impacting virtually every career area. In many cases, its implementation is increasing the speed and efficiency of systems (e.g. fraud detection in banking), but in others the impact can potentially have more damaging effects (e.g. the impact of autonomous vehicles on employment in the trucking industry). Through an exploration of AI past, present, and future, students will consider various forms of artificial intelligence, how the application of AI impacts society in general, and more specifically AI's potential impact on their individual choice of careers.

Inquire: The Black Experience CRN 3699

This course is an introductory course, offering an overview of major themes, issues, and concentrations in African American Studies. In order to explore the complexities and the richness of the African American experience students will engage with written texts, film, art, music, and literature. This course is intended to provide a foundation in African American Studies that sparks students' curiosity and encourages them to explore the topic further.

Inquire: Craft Craze CRN 3693

Together we will explore the industry of craft and current craft trends. We will learn about the history of craft with a focus on glass, ceramic, fiber, metals, jewelry, and furniture. We will examine how craft relates to culture, identity, and our local Jamestown community. We will also discuss current "craft" movements, for example candle-making, soap making, distilling spirits, and brewing beer. This course will bring in guest speakers and connect with local crafters. Students will engage in hands-on craft projects and presentations. Prior knowledge of art, craft, or curation is not necessary, only a curiosity to discuss the lineage of craft, community, and creativity.

Inquire: Dark Side of Tourism CRN 3694

Why is Dark Tourism so attractive, and why are humans fascinated by these gloomy and horrifying places? Thanatourism, or Dark Tourism, is an extreme and alternative form of tourism as well as a growing and curious part of the industry. This course explores the diverse forms of Dark Tourism and the motivation to visit sites that are associated with death, disaster, destruction, and the macabre. In this course, students study the impacts of such tourism on culture, economies, the environment, and the ethics involved. Students will also apply theoretical knowledge to create their own niche product for a specific Dark Tourism market or research project.

Inquire: Digital Citizenship CRN 3714

If an employer were to conduct an online search, what would your digital profile reveal? Can ethics and civility be demonstrated in the online environment? How can you protect yourself and your digital identity? This course will explore these questions as students take a deeper look into the role technology plays in their lives and what it means to be a digital citizen. In this course, students will explore their social media use and examine the potential effects as aspiring professionals. In addition, students will create an electronic portfolio they will use to collect and curate their digital archives from their academic lives as they transition to the professional workplace.

Inquire: Early Black Cinema CRN 3709

Early Black Cinema: Students will study independent movies made for segregated theaters from the 1920s into the 1940s. Through research, discussion and video creation, we will strive to identify with the audiences of "Race Cinema": Black-cast movies which confronted such issues as the color line, Jim Crow, the few allowed role models, Blackface minstrelsy, the Harlem Renaissance, and northern migration.

Inquire: Food for Thought CRN 3707

In what ways do our kitchens inform us about our world? Each week we'll come together virtually to cook a meal in our own kitchens while seeking to answer this question and expanding our palates. Some weeks will feature experts in different disciplines to understand how the world comes together around the kitchen table. Students will be expected to write a weekly blog that shares their cooking experience and chronicles the stories of their kitchen. Access to a kitchen (stove, oven, and sink) during class meeting times is required; pantry staples and cookware can be provided by the instructor.

Inquire: I Read it in the *Rolling Stone* CRN 3702

Would you like to spice up your research projects? While our libraries' databases are far-reaching, reliable tools when seeking information and opinions on a topic, there is also well-researched journalism and credible editorial content to be found in sources that aren't necessarily among top search results. This course will encourage you to consider magazines and webzines that, while rooted in pop culture, nevertheless address the social, environmental, and political issues at play in our current discourse. We will explore broad topics as we examine the varying points of view, styles, and ethos revealed in the pages of publications you might not otherwise read or consider valid sources. Finally, you'll collaborate with classmates to produce an original magazine.

Inquire: Immigrant Voices CRN 3718, 3719

This course will focus on the experiences of migrants in the world today. Through stories and personal interviews, students will examine and compare the thoughts, challenges, perspectives, and journeys of migrants. Students will answer the questions: Why do people leave their homes? What are the

impacts and challenges for them, the communities they leave and those that receive them? Through community outreach, students will come to know immigrants living in our area and will capture their stories as part of a digital storytelling project.

Inquire: In the News CRN 3717

Do your instructors ever bring up topics in class that are in the news, but you don't have any knowledge about? Is your response, "I think I have heard about it, but I am not sure?" News is available through a lot of different mediums, but do you actually pay attention to or take advantage of what is available? We will discover together newsworthy events of local, national, and global concern while discerning appropriate sources for them. No "fake news" here. Students will follow their own topic of interest throughout the course and share their findings with the class each week and in a final project. Get ready to learn about what is going on all around us.

Inquire: Just Breathe CRN 3698

Students will engage in a variety of critical thinking tasks and meditation techniques through an examination of Eastern and Western psychological perspectives. Within the scope of these seemingly disparate cultural perspectives, students will develop a foundation of mindfulness practices in their daily lives. The course will also explore the biological impact of long-term chronic stress on physical and psychological health and well-being. Through selected readings, videos, and current scientific research in consciousness psychology, students will explore the efficacy of mindfulness in stress reduction, cognitive and emotional awareness, and positive personal growth towards becoming a happier, healthier, and more successful student for life. Students will maintain a journal chronicling their mindfulness practices to ultimately answer the question: What does it mean to be truly and mindfully present in our everyday lives? In a final project, students will create a plan that details how they will continue their mindfulness practices moving forward.

Inquire: Let's Go Globe-trotting! CRN 3704, 3705

Do you dream of seeing the world, or even just one special country someday? In this course you will learn how to research and plan for a successful trip to the country of your dreams that will stay dear to your heart forever. You will learn to ask all the right questions to make you an informed and safe globe trotter, while learning about interesting and diverse cultures around the world. The final project is a colorful travel booklet you create with several complete, informative itineraries to various countries that could be transformed into real trips someday with only minor changes (such as flights & cost)!

Inquire: Let's Tessellate! CRN 3690

Quilters, bricklayers, and flooring specialists do it. Architects of the Middle East did it, as did artists like M.C. Escher. Even epidemiologists and cell biologists find it useful. What brings this interesting mix of people together? Patterns called tessellations. In this course we will explore how these fascinating designs are formed and how they shape the world we live in. What value do they have to seemingly disconnected fields of work and study, and what lessons can they teach us about art, science, and how we see the world?

Inquire: Local Foods, Local Places CRN 3708

In this course, students will engage in hands-on activities that examine the local and regional food system, including community gardens and urban farms, the local farmers markets, and organizations such as soup kitchen and food pantries. We'll take a look at how food is grown and distributed throughout the region, and students will have the opportunity to grow and preserve their own food.

Inquire: Monster Theory CRN 3687, 3700

Vampires, zombies, werewolves, and giant beasts play essential parts in our culture, and these parts differ depending on different situations and interpretations. Indeed, these figures often represent safe spaces where we can examine and discuss our fears about the world around us. This course will examine these monsters and the fears and tensions they represent. Class discussion and assignments will look at representations of these monsters in literature, art, popular culture and history.

Inquire: Music: Love, Death, Spirit CRN 3685, 3686, 3695, 3696

Frank Fitzpatrick, a critically acclaimed songwriter, astutely describes music as "essential to human life and an integral part of our development as individuals and as a species." Every culture has always had music. Since love, death, and spirituality are also essential to our existence, it's not surprising that more songs likely have been sung about those three topics than any others. How does music help us to celebrate love, come to terms with death, and connect in spirit with something larger than ourselves? How does music about these topics add to our human experience, enabling us to discover deeper truths about ourselves? The class will examine these and other questions relating to music of various styles, time periods, genres, and student interests. Students will develop related questions as they explore and interpret music of their own choosing. Music listening, discussion of multiple perspectives and meanings, personal reflection, and some research will be important components of our inquiry. No prior experience with music is required for this course, and it welcomes students of all majors.

Inquire: Personality of Politic CRN 3703

This course helps students understand the psychological origins and evolution of their own political views—specifically, conservatism and liberalism. After exploring partisan politics on a theoretical level, students will research their own "political genealogy." They will think about all the potential sources of their views and interview individuals with both similar and opposite views to their own. The course will also explore the current state of political discourse in the United States and current movements to censure unpopular opinions. What role does political correctness play in our current political climate? How do the 24-hour news cycle and social media contribute to group polarization? The roots of extremism on both the right and left will be explored. Students will develop recommendations for how to improve political discourse in our world today.

Inquire: Redefining Feminism CRN 3701

Don't be afraid to say the "F" word; feminism, that is. This course seeks to explore the roots and meaning of feminism and feminisms. Through participatory learning, collaborative projects, critical thinking, and creative expression, students will engage with differences that cut across race, gender identities, class, and national origin. This course will stress the role of students as active co-producers of knowledge and it will require students to participate in in-class discussions, written work, and project-based learning. Students will engage with sources ranging from graphic novels, social media, journal articles, and readings from various sources. Additionally, students will be required to complete a creative final project that integrates research with campus life.

Inquire: Robot Revolution CRN 3688, 3711, 3712

Advanced manufacturing technologies such as additive manufacturing, machine learning, robotics and others continue to grow in importance in manufacturing. The role for humans in industry will continue to change as well as a result of those technological changes. Students will explore the social, cultural, and very personal changes that are likely to occur as manufacturing becomes more highly automated. A battle plan will be developed to stay relevant and highly employable in the face of those changes.

Inquire: Tabletop Extravaganza CRN 3691

Students will explore the history of gaming across cultures as a lens for examining the potential of games as mediators for social engagement, community cohesion, and individual growth. Students will play a variety of historical and modern tabletop games designed to encourage prosocial engagement and critical thought through cooperative gameplay and problem solving. The selected games will also expose students to various game

mechanics and design. Based on research, course readings, and hands-on gameplay, students will collaborate to create and demonstrate gameplay for a tabletop game of their own design, ultimately answering the question: How do games make us better?

Inquire: Urban Legends CRN 3692

All of us have heard stories that have been passed down from our friends. Sometimes, these are ghost stories, such as the vanishing hitchhiker story about a young woman who finds a ride with a sympathetic driver only to disappear. Sometimes, these stories involve alligators in city sewers or dangers in college dorms. Called urban legends, these stories are set in contemporary cultures and often reflect concerns and imagined dangers of specific time periods. In this course, students will examine various urban legends to determine their overall significances, meanings and perceived moral lessons.

Inquire: Vikings! CRN 3643

Many stereotypes exist about the people called the Vikings. But who were the real Vikings? This course will challenge the stereotypes, including assumptions about violence, sex and gender roles, and social roles and hierarchies. We will utilize media and evidence from history, archeology, biology, pop culture, and literature to build a more accurate picture of the time, place, and people, while incorporating hands-on activities, including traditional food and games.

Inquire: Wellness & Happiness CRN 3715

If you ask people what they want in the future, health/wellness and happiness are often high on the list. College students want a future career and relationships that bring them meaning and happiness. What exactly are we envisioning when we set our sights on a happy future? How does wellness intertwine with happiness and how can we use writing to investigate these topics? In this course, we will examine the lessons gleaned from the scientific study of happiness and well-being. Students will identify factors that make happy individuals and societies, and will explore how to increase their personal wellness and happiness. Special attention will be paid to the multi-dimensional wellness model, happiness, gratitude, and positive well-being.

Inquire: What Makes Us Human? CRN 3706

What does it mean to be human? Using an interdisciplinary, collaborative and active approach, students will explore the unique characteristics that make us human. Throughout history, numerous attempts have been made to define humanity including capacity for learning, communication, music, religion, creativity and curiosity. As the pursuit for a concise definition progresses, and scientific inquiry advances, we have become more cognizant of the I and all dependent upon a careful balance of our ecosystem. Throughout the course, students will have the opportunity to investigate the uniqueness of the human species, as well as develop an understanding of its precarious balance on Earth.

Inquire: What Would Florence Nightingale Say? CRN 3716

Florence Nightingale has always been acclaimed as the founder of modern nursing. This journey in time will start at the beginning, researching the common medical practices of Florence's time. From there we will travel forward through history, identifying advances that have changed medical practices as Florence once knew. We will debate those changes and the positive and/or negative outcomes that have resulted. Our journey will end with a glimpse into the future and with what we propose medical practices might be. Along the way we will pause often to ask ourselves: What would Florence Nightingale say?

Inquire: Where Do I Start? CRN 3697

Every decision has a consequence. Some decisions are so easy that you're not even aware you are making them. Others are complicated with many factors to consider, some of which may be beyond our control or shaped by the society we live in. Traditional college age students face significant life decisions such as selecting a career pathway, living with parents or on their own, beginning or ending a romantic relationship. Older students may face decisions related to a career change, marriage, and childrearing. If you are facing an important life decision – this course is for you!

Inquire: 21st Century Cities CRN 3713

For the first time in human history, more people live in cities than in rural areas. This process of urbanization has accelerated over the past decade or so, providing new and critical challenges for providing sustainable living conditions for cities around the world. Using the United Nations 2030 Sustainable Development Goals as a framework, we'll look at both the challenges and solutions for meeting these goals in cities locally, nationally, and glob-ally. Here is a link to the Sustainable Development Goals: <https://www.un.org/sustainabledevelopment/sustainable-development-goals/>

ELI	7015	Students will further develop speech and literacy proficiency of the English language. Students will continue to foster and apply critical reading skills. They will also develop composition skills and implement revision practices to create original texts in English. Students will experience and rehearse spoken English to improve fluency, pronunciation, clarity, and speech organization. Areas of grammar and sentence/paragraph structure will be contextualized within general language development. This second course in the sequence will engage students in new texts, topics, and written/verbal language performances.

PHE	7021	Students will be introduced to the basics of suspension training. They will learn the skills necessary to effectively and safely train using the TRX Suspension Training System.
PHE	7030	Students will learn about a total body conditioning exercise method which combines flexibility and strength. The purpose of Pilates is to develop mind and body uniformity; provide balance, flexibility, and strength; improve posture; and strengthen the abdomen, lower back, and buttocks. No requisites.
PHE	7031	Students will learn that Core Concepts is an easy-to-follow workout that will increase strength as an alternative to a weight room workout. The course will address core strength, muscle endurance, range of motion and joint stability. The class will include the use of floor work, hand weights, stability balls, medicine balls, and rubber tubing, along with other equipment. No requisites.
PHE	7032	Students will learn that cardio kickboxing is an exercise program comprised of general conditioning exercises for over-all body conditioning and fitness. The course will cover kickboxing moves in an aerobic setting. Students will learn to throw basic kicks and punches with proper form and technique. A warm-up, aerobic portion, drills, cool down, and stretch and relaxation are included in the class. No requisites.
PHE	7038	Students will learn practical strategies to recognize, manage and reduce stress. Chronic stress can negatively impact health, productivity and performance. Students learn stress reduction and management strategies to utilize in order to obtain better health. No requisites.
PHE	7039	Students will develop the skills, knowledge, and techniques needed to become a successful high school football official. This course will examine the need for, role of, and structure of the National Federation of State High School and its rules. The overall course focus will be on the dynamics of how this governing body impacts officiating experiences. Special attention will be given to: motivation, positive psychology, communication, self-efficacy, ethical and legal issues, official-player compassion, and building trust and rapport, while also exposing students to the positive impact an official can have on a player's overall health and wellness. Upon completion of this course, students will have the opportunity to earn certification as a Certified Football Official through the Southwestern Chapter of New York State Certified Football Officials. No prerequisites.
PHE	7040	Students will develop the skills, knowledge, and techniques needed to become a successful high school basketball official. This course will examine the need for, role of, and structure of the International Association of Approved Basketball Officials, Inc. (IAABO) and its rules. The overall course focus will be on how this governing body impacts and supports the officiating experience. Special attention will be given to providing the student with the tools they need to become a competent and successful basketball official. Further emphasis will be placed on how competent officiating supports the positive impact that high school basketball has on its student-athletes, their schools, and their communities. Upon completion of this course, students will have the opportunity to earn certification and membership in IAABO and its appropriate local chapter(s). No requisites.
PHE	7546	Students will learn the tools needed to effectively teach beginners to novice skiers and prep them to pass the level I ski instructor certification exam.
PHE	8002	Students will develop the skills and knowledge needed to become a certified Health and Wellness Coach. They will learn to facilitate mindset and behavior changes that generate sustainable healthy lifestyles for clients. Students will examine the need for, structure behind, and process of health and wellness coaching. Topics include coach/client relationship, motivational interviewing, positive psychology, communication, compassion, ethical & legal issues, self-efficacy, coaching, and mindset theories. Students will gain experiential knowledge of the positive impact of health and wellness coaching. Upon successful completion of this course, students will earn a certificate in Health and Wellness Coaching through the nationally recognized American Sports & Fitness Association (ASFA). Course fee covers certification exam, which will be administered internally. Prerequisite: PHE 1590.
