4th week of semester and later (September 14 and later)	100%	0%
- Students participating in drop/add procedures during the first week of classes will not be assessed charges for dropped classes required for course schedule changes.
- Students who wish to withdraw from any or all of their classes are advised to file their course withdrawals promptly with the Student Services Center on the Cattaraugus County Campus, the registrar on the Jamestown Campus, or the main office at the North County Center. Students should consult with the financial aid and business offices *before* they stop attending classes.
- All refunds are based on the date withdrawal forms are completed and filed with the registrar's office. Exceptions to this policy will be considered under extenuating circumstances.
- Students who receive Title IV aid (Pell, SEOG, Direct loans) and withdraw from all classes may have their awards reduced and will be responsible to repay any aid disbursed that they are subsequently ineligible to receive. Refunds are paid in the following order: Federal Direct Loans (subsidized and unsubsidized), PLUS Loans, Pell, SEOG Grants, required refunds of other federal, state, private, or institutional assistance, to the student.
- International students will be charged a fee to ensure they have appropriate health insurance coverage, which includes repatriation. This charge can be removed if the student completes the proof of health insurance waiver process.

Certificate of Residence

To be eligible for New York state tuition rates, students must submit a certificate of residence issued by the county or township (for Chautauqua County residents) in which they reside no earlier than 60 days prior or 30 days after the start of class(es). Without a certificate of residence, the out-of-state tuition rate will be charged. The certificate of residence form and instructions are available at <http://www.sunyjc.edu/current-students/business-office/certificate-of-residence>.

Payment Process for All Students

After you have registered for your classes, please visit <https://banner.sunyjc.edu>. You must first complete your financial responsibility agreement before you will be able to view your current semester charges. You are responsible for accessing your bill which is available on demand via Banner self-service account.

JCC will not mail you a schedule bill.

If you:

- Expect financial aid funds that you are eligible to receive, they will be applied to your student account after registration.
- Need to pay your bill:
 - You may pay for classes by cash or check in any of the business offices. To pay using a bank account or a credit/debit card, or sign up for the payment plan go online to <https://banner.sunyjc.edu>. Payment must be received by August 21, 2020.
 - If payment is not received, your account will be placed on hold and assessed a late fee.

Maintaining Eligibility for Financial Aid

Students enrolled at JCC are eligible to participate in a wide range of federal, state and institutional grants, scholarships, loans, and work-study programs. Students must be accepted and matriculated by the JCC admissions office and meet academic eligibility criteria to receive awarded funds. Start the application process for all sources of aid by filing the 2020-2021 Free Application For Federal Student Aid (FAFSA) at www.fafsa.gov.

For more information on federal and state financial aid resources, visit the websites for the U.S. Department of Education, Federal Student Aid at www.studentaid.ed.gov, New York State Higher Education Services at www.hesc.ny.gov, and Pennsylvania Higher Education Assistance Agency at www.pheaa.org. In addition to meeting financial and academic eligibility requirements, students must meet federal and state citizenship and residency requirements and must not be in default of a federal student loan or owe a repayment of other federal student aid to receive awarded funds.

Students are encouraged to apply for funds from outside sources as well, such as private grants and scholarships, employee reimbursement plans, state vocational rehabilitation programs, Native American aid, veteran's benefits, and workforce development and re-training programs. Learn more about financial aid opportunities at JCC at www.sunyjc.edu/admissions/financial-aid.

Advisement/Registration

Registration Procedures

Full- and part-time students can register for any *campus-based course* prior to the second scheduled class meeting and any *online course* prior to the first scheduled day of the course.

Currently Enrolled Full-Time Students: Student advisement and registration concludes August 21. Schedule changes are processed during the drop/add period, August 24-28. Students can print a copy of their schedule by signing into Banner at <https://banner.sunyjc.edu>, or by visiting the Student Services Center on the Cattaraugus County Campus, the registrar's office on the Jamestown Campus, or the main office on the North County Center.

New Students and Readmissions: Apply for entrance to the college through the admissions office or at www.sunyjc.edu. Click on the admissions link. The admissions office will inform you about advisement and registration procedures.

Part-Time Students: Part-time students with 30 or more degree hours are encouraged to seek advisement from a full-time faculty member or counselor. Part-time students must follow the placement test policy. If you wish to register as a part-time student, please note that you can register in person at JCC sites prior to the second class meeting.

Financial Responsibility Agreement (FRA)

Registering for classes creates a financial obligation to the college. Registered students are required to complete a financial responsibility agreement (FRA) by August 10, 2020. Failure to submit the complete agreement will result in the student being dropped from all registered classes. The FRA may be completed by logging in to self-service Banner and viewing the bill.

Mail-in and Online Registration

Students registering by mail or online (<https://banner.sunyjc.edu>) may access their bill online immediately after registration. To ensure class registration is not cancelled, each student must complete the financial responsibility agreement by August 10, 2020. Student bills may be paid online in full or in installments at <http://mycollegepaymentplan.com/> Jamestown. Each student bill is due on August 21, 2020. After August 21, 2020, payment is due upon registration. If payment is not received, your account will be placed on hold and assessed a late fee.

Continuing part-time students can register through their self-service Banner (SSB) account. Full-time students can make changes to their schedule through SSB by using their alternative PIN, obtained during advisement.

Adding a Course: Students who wish to add courses must do so prior to the second scheduled class meeting for *campus-based courses* and prior to the first scheduled day for *online courses*. Any additions after these dates require the instructor's permission. Permission cards are available at the registrar's office on the Jamestown Campus, the Student Services Center on the Cattaraugus County Campus, and the main office of the North County Center. Permission for online course additions may be obtained via email and sent to Registrar@mail.sunyjc.edu.

Withdrawing From a Course: You may withdraw from individual classes with a W grade through November 4. Tuition adjustments will be made according to the refund schedules, as noted on page 4. All course change procedures can be initiated by contacting the Student Services Center on the Cattaraugus County Campus, registrar's office on the Jamestown Campus, and main office of the North County Center. If you begin the semester and then decide that you must withdraw from all of your courses, you must complete an official total withdrawal form which can be found at www.sunyjc.edu. Please refer to withdrawal dates and liability on page 4. **Withdrawals beginning August 24 will result in liability of your tuition and fees.**

Advisement Notes

- Full-time students are required to see their advisors to review their academic progress and to discuss courses for the upcoming semester. Part-time students are also strongly urged to seek advisement.
- When you meet with your advisor, review your educational-vocational plans and academic progress. Discuss degree and graduation requirements. *It is ultimately the student's responsibility to learn and know the graduation and program requirements for the degree being sought and to monitor progress toward fulfilling those requirements.*
- Access your student transcript at <https://banner.sunyjc.edu>. Use the college catalog and DegreeWorks Evaluation to identify program requirements. Prepare a tentative course schedule prior to your advisement session.
- If you are changing your program of study, catalog term, and/or your advisor, you must complete a change form. Advisor/Program change forms are available online at www.sunyjc.edu/advisement and in the Student Records menu of your Banner account.
- Students with financial obligations to the college may be denied registration for additional credit and non-credit courses until satisfactory arrangements are made. Students should review their accounts with the financial aid or business offices before scheduling advisement appointments.
- Students are responsible for making sure their course selection meets financial aid guidelines.

Placement Test Information

Math and English placement is based on high school GPA and additional success indicators. This helps determine the courses in which the student is best prepared to begin. Students without a GPA through the junior year of high school will take a computer-based math and reading test. Students who have a high school diploma from out of state will take a computer-based math placement test.

If you have a disability and require accommodated testing, contact the Accessibility Support Services coordinator at each site.

To register for a placement test and/or to see a list of exemptions, go to www.sunyjc.edu/placementtesting or call:

Cattaraugus County Campus: 716.376.7508

Jamestown Campus: 716.338.1065

North County Center: 716.363.6500

Important Course Schedule Information

Starting in spring 2021 credit course schedules will no longer be printed. All course information will be viewable online at <https://www.sunyjc.edu/courses>.

Academic Information

Grade	Quality Pts.	Grade	Quality Pts.
A Excellent	4.0	C Average	2.0
B+ Very good	3.5	D+ Fair	1.5
B Good	3.0	D Passing	1.0
C+ Above average	2.5	F Failure	0.0

Additional Grades - Consult the college catalog for details about the incomplete (I), credit (CR), audit (AU), special audit (SA, SW, SX), official withdrawal (W), and administrative withdrawal (X) grades.

Imputed Credit: The faculty and administration have determined that some courses listed in this master schedule may not be counted toward degree programs offered by the college. These are courses which are not at the college level, but are designed as remedial courses for students who need to prepare themselves for college-level work. Eligible students enrolled in courses carrying imputed credit may receive financial aid.

Attendance: Every student is expected to attend all lecture and laboratory sessions for which he or she is registered. Absences will be recorded by instructors, and the student will be held responsible for making up all work missed. Attendance requirements for each course are established by the instructor and announced, published, and distributed with the course outline at the first class meeting.

Participation in Online Courses: Online students must begin their course the week it is scheduled to begin. Students are expected to log in to their course three-four times per week. Participation requirements are set by the instructor and published in course information documents. More information is available at www.sunyjc.edu/academics/online-learning.

Retention and Graduation Rates: A study of the 754 students who enrolled as first-time full-time students at JCC in fall 2016 indicated that 36% had graduated by the beginning of the fall 2019 semester. An additional 14% had transferred to other colleges prior to graduation and 5% were still enrolled. A recent survey of 2019 graduates indicated that 40% of those responding had transferred to four-year colleges or universities and 51% were employed full time. (Sources: Materials from Jamestown Community College Office of Institutional Research and the 2018-2019 graduate follow-up survey). It should be noted that some students "stop out" for a semester or two due to family, work, or financial considerations, but eventually return to complete their educational programs. Some students leave college before receiving their degrees because they have obtained the necessary skills for employment or have otherwise met their educational goals by attending JCC. Additional information about JCC graduates is available at <http://www.sunyjc.edu/about/facts-figures>.

Course Requirements

Students who have completed pre-/corequisites with a passing grade at another institution must provide a copy of their unofficial transcript at the time of registration. Terms used in course requirement information in the master schedule:

PREREQUISITE: A course or other requirement that must be completed prior to enrolling in another course.

COREQUISITE: A course or other requirement that must be completed during the same semester as another course.

ELIGIBILITY: Refers to an academic readiness to take certain courses through successful completion of previous coursework or placement testing.

PERMISSION OF INSTRUCTOR: A course with this notation requires the student to meet with the instructor to receive permission to take the course.

WAIVER OF PRE-/COREQUISITES: If a student feels qualified to take a course for which he or she does not appear to have the formal prerequisite background, the student should contact the instructor of the course. If, in the estimation of the instructor, the student meets the prerequisites in some other way, the instructor may sign an instructor's permission card which the student can then present to the Registrar's Office on the Jamestown Campus, the Counseling and Career Planning Center on the Cattaraugus County Campus, or the Main Office on the Dunkirk Campus. In the absence of the instructor, the waiver may be signed by the discipline coordinator/director, or dean. Students cannot register for courses for which they do not have a pre/corequisite or a signed waiver form.

SPECIAL STATEMENT REGARDING SEQUENTIAL COURSEWORK: In the case of sequential coursework (i.e. math and English) where the student's entry point may be determined by way of a placement procedure or successful completion of other coursework in the sequence, a student will have met a prerequisite or corequisite for a course in the sequence if they are eligible to register for a higher level course for which the current course is a prerequisite. That is, if a student is eligible to take course C in a sequence (where course A is a prerequisite for course B, and course B is a prerequisite for course C), the student has met pre- or corequisites for both course A and course B.

Course Schedule Terminology

BLDG	Building in which course meets
CMP	Campus location
CRSE	Catalog number: numerical classifications for course areas
CR	Credit hours
CRN	The four-digit course reference number used to register for a course
FEF	Additional cost to student for materials, equipment, etc. for a specific course
IM	Instructional method
INSTRUCTOR(S)	Name of instructor
RM	Room in which course meets
SBJ	Abbreviation of the name of the academic discipline
TP	Type of course (F2F = Face to Face; WB = Online; WBO = Face to Face and Online)
UMTWRFS	Days of week course meets (U = Sunday; R = Thursday)

Values, Ethics, & Diverse Perspectives Courses

JCC is committed to providing general education experiences for graduates that will prepare them to make reasoned judgments in both personal and professional circumstances. To support this goal, graduates of JCC who matriculate for the first time beginning fall 2008 or thereafter will be required to include in their degree programs at least one course that has been designated as incorporating study of values, ethics, and diverse perspectives (VEDP). Faculty advisors can assist students in selecting courses that will meet this graduation requirement. All courses listed below are effective with the fall 2008 semester unless otherwise noted.

**Courses transferred to JCC from another institution may be used to fulfill the VEDP requirement. Additional courses may be added to the list in subsequent semesters.*

Scientific Reasoning Courses

Graduates who matriculate for the first time beginning fall 2010 or thereafter are required to include in their degree programs at least one course that has been designated as incorporating study of scientific reasoning (SR). Scientific reasoning involves the ability to understand and appreciate the methods scientists use to explore natural and/or social phenomena, including observation, hypothesis development, measurement and data collection, experimentation, evaluation of evidence, and employment of mathematical analysis.

SUNY General Education Requirements

What are they?

The SUNY General Education Requirement (SUNY GER) is the 30-credit requirement for all SUNY baccalaureate, A.A., and A.S. degree recipients, which supports academic excellence as well as student choice, mobility and degree attainment by expecting students to demonstrate achievement of SUNY-wide learning outcomes.

Students matriculating in fall 2015 or after and who graduate with an A.A. or A.S. degree **must** complete 30 credits of SUNY General Education courses that are distributed among at least seven of the 10 SUNY content categories. Mathematics and Basic Communication must be among the seven categories. (Students matriculating into the A.S. Engineering Science degree must complete 30 credits of SUNY General Education courses that are distributed among at least **five** of the 10 SUNY content categories.)

Students matriculating between fall 2010 and spring 2015 were encouraged to complete 30 credits of SUNY GER courses in at least seven of the 10 SUNY content categories, but were not required to do so.

How can I be sure if my courses are going to meet the SUNY General Education Requirements?

Use the checklist to identify JCC courses that meet requirements for each of the General Education categories. Meet with your advisor or a counselor to review these courses as they apply to the SUNY General Education Requirements.

Inquiry Courses

Things in the real world don't often fit inside the neat boxes of academic subjects. Why should all of your classes? Inquiry courses explore compelling questions from fresh angles, bringing together different disciplines, theories, and types of evidence. Designed for first-year students, they also help you navigate the ins and outs of college. You may take them in place of the Student Success Seminar this semester if you choose.

Interdisciplinary Studies— INT 1555

NORTH COUNTY CAMPUS

CRN 4967 Artificial Intelligence: Yesterday, Today, and Tomorrow - C. Reisch

"Hey SIRI, what will my career area look like in 5, 10, and 20 years?" The continual development, refinement, and implementation of artificial intelligence (AI) is a disruptive force increasingly impacting virtually every career area. In many cases, its implementation is increasing the speed and efficiency of systems (e.g. fraud detection in banking), but in others the impact can potentially have more damaging effects (e.g. the impact of autonomous vehicles on employment in the trucking industry). Through an exploration of AI past, present, and future, students will consider various forms of artificial intelligence, how the application of AI impacts society in general, and more specifically AI's potential impact on their individual choice of careers.

CRN 4537 Feeling Smart? The Secrets of Emotional Intelligence - M. Franchina

Students will study theories related to emotional intelligence including the relationship of emotional intelligence to academic achievement and workplace success. Students will explore the physiological processes and behavioral tactics that involve emotional intelligence. Students will investigate how emotional intelligence develops throughout the lifespan. A review of different cultures' expectations regarding emotional intelligence will be explored. Students will apply what they've learned by completing self-assessments to measure self-awareness, self-confidence, self-control, commitment and integrity, communication skills, and initiating and accepting change. A final project will incorporate theory and the result of the surveys to create an individual plan to improve a specific component of emotional intelligence.

JAMESTOWN CAMPUS

CRN 4922, 4924 The Art of Mathematics - S. Zwyghuizen

Mathematics and art have long been intertwined. From sacred geometric symbols dating back thousands of years to modern-day mathematicians using crochet to visualize complicated topological spaces, mathematics has bred creative endeavors, and many creative endeavors have their foundation in mathematics. In this course we will investigate those connections through topics such as how to "weave" an invisible carpet; why engineers find origami useful; and what daisies, the irrational number phi, and Leonardo Da Vinci have in common. Students will also discover their own connections as they exercise their creative talents. No special mathematics skills are required beyond curiosity and an open mind!

CRN 4935 Beyond the Binary: LGBTQIA+ Expression and Identity - G. Rabb

The 21st century has seen an explosion of identities and manners of expression beyond the traditional male or female, gay or straight. Increasingly students and others identify as lesbian, gay, bisexual, trans, questioning, inter-sex, asexual, pan-sexual, resulting in confusion for the populations who identify as such and their friends, family, and society at large. This course is designed to help students understand who they are and how they fit into the world around them and how society could and should respond to the plethora of "new" identities based on the understanding of gender fluidity and related concepts. The course will take advantage of the instructor's 30+ years as a gay activist and include potential guest speakers from around the country. Students will use LGBTQIA+ resources in our library as well as readings from various sources, including but not limited to books. The course will also consider the historical changes in expression and identity starting in the late 19th century through the present day.

CRN 4997, 4998 The Cult of Persuasion - S. Sellstrom

This course will start with a broad question: What is persuasion and in what ways are we persuaded to change our attitudes, values, and beliefs? We will then expand this question to further understand the prevalence of persuasive messages in our daily lives and the types of persuasive messages that are most successful. But we'll take it one step further: What traits do successful persuaders have and why does this matter for us as citizens? We will take a look at successful persuaders from cult leaders and politicians to Instagram influencers and consider our role as message decoders and creators. How can persuasion both empower and hinder us?

CRN 4531 Feeling Smart? The Secrets of Emotional Intelligence - T. Smith

Students will study theories related to emotional intelligence including the relationship of emotional intelligence to academic achievement and workplace success. Students will explore the physiological processes and behavioral tactics that involve emotional intelligence. Students will investigate how emotional intelligence develops throughout the lifespan. A review of different cultures' expectations regarding emotional intelligence will be explored. Students will apply what they've learned by completing self-assessments to measure self-awareness, self-confidence, self-control, commitment and integrity, communication skills, and initiating and accepting change. A final project will incorporate theory and the result of the surveys to create an individual plan to improve a specific component of emotional intelligence.

CRN 4993 Your Inner Roman - C. Giedz

The life we are used to today has many roots in ancient Rome. The Romans not only gave us ideas such as "representative democracy" and "innocent until proven guilty" but they were also master engineers and architects who invented concrete and used it to build an environment very similar to the one that surrounds us today. But ancient Rome wasn't just similar on the surface; there is quite a bit of "ancient Roman" in all of us. Are you a sports fan? Do you like to shop? Do you like "fast food" or a massage after working out at the gym? If so, you could spend a day in ancient Rome and still do many of the same things that you like to do today. In this course you will meet your "inner Roman" and learn about the numerous Roman influences on American culture today. On this journey of imagination you will journal your life in ancient Rome and reflect critically on our own society.

CRN 4999, 5000 Gamer's Guide to the Galaxy - J. Stein

How do virtual worlds affect how we collaborate with others? Gaming is like any other journey in life, especially an academic one: When students come to college, they are presented with new "open worlds." They are expected to develop new skill sets and set upon new journeys that "level them up" in order to look back upon where they've been and set themselves for the future. Only after repeating the "mission" over and over again, can students become truly skilled; in such a cycle, they become academic masters. Featuring: the virtual galaxy of Eve with special guests: Mercenary V from Cyberpunk 2077 and the child combatant soldiers of Metal Gear Solid V: The Phantom Pain.

CRN 5001, 5002 Immigrant Voices - T. Baginski

This course will focus on the experiences of migrants in the world today. Through stories and personal interviews students will examine and compare the thoughts, challenges, perspectives, and journeys of migrants. Students will answer the questions: Why do people leave their homes? What are the impacts and challenges for them, the communities they leave and those that receive them? Through community outreach, students will come to know immigrants living in our area and will capture their stories as part of a digital storytelling project.

CRN 4994 In the News - M.. Zenns

Do your instructors ever bring up topics in class that are in the news, but you don't have any knowledge about? Is your response, "I think I have heard about it, but I am not sure?" News is available through a lot of different mediums, but do you actually pay attention to or take advantage of what is available? We will discover together newsworthy events of local, national, and global concern while discerning appropriate sources for them. No "fake news" here. Students will follow their own topic of interest throughout the course and share their findings with the class each week and in a final project. Get ready to learn about what is going on all around us.

Inquiry Courses

CRN 5113 Just Breathe - J. Zeiders-Weber

Students will engage in a variety of critical thinking tasks and meditation techniques through an examination of Eastern and Western psychological perspectives. Within the scope of these seemingly disparate cultural perspectives, students will develop a foundation of mindfulness practices in their daily lives. The course will also explore the biological impact of long-term chronic stress on physical and psychological health and well-being. Through selected readings, videos, and current scientific research in consciousness psychology, students will explore the efficacy of mindfulness in stress reduction, cognitive and emotional awareness, and positive personal growth towards becoming a happier, healthier, and more successful student for life. Students will maintain a journal chronicling their mindfulness practices to ultimately answer the question: What does it mean to be truly and mindfully present in our everyday lives? In a final project, students will create a plan that details how they will continue their mindfulness practices moving forward.

CRN 5003 Mark Making - M. Kirsch

This course will explore the history of how humans have acknowledged their shared humanity and distinct individuality through a variety of mark-making techniques. Students will be guided through a series of printing projects including stamping, stenciling, mono-printing, and etching. Additionally, participants will explore the foundations of photography and photographic expression, including the use of hand-built cameras. Students will use visual journals to explore their own personal histories and record their progression throughout the course. At different times throughout the semester, the class will open its studio doors to the student body at large for a shared studio experience.

CRN 5011, 5013 Music Is: Love, Death, Spirit - N. Flory

Frank Fitzpatrick, a critically acclaimed songwriter, astutely describes music as “essential to human life and an integral part of our development as individuals and as a species.” Every culture has always had music. Since love, death, and spirituality are also essential to our existence, it’s not surprising that more songs likely have been sung about those three topics than any others. How does music help us to celebrate love, come to terms with death, and connect in spirit with something larger than ourselves? How does music about these topics add to our human experience, enabling us to discover deeper truths about ourselves? The class will examine these and other questions relating to music of various styles, time periods, genres, and student interests. Students will develop related questions as they explore and interpret music of their own choosing. Music listening, discussion of multiple perspectives and meanings, personal reflection, and some research will be important components of our inquiry. No prior experience with music is required for this course, and it welcomes students of all majors.

CRN 5005 The Next Steps - C. Cummings

Recent research finds that the act of walking increases blood supply to the brain and leads to improved creative thinking. From a neurochemical perspective our brains are more relaxed during walking due to the release of chemicals that aid in executive function, which governs how we focus on tasks and deal with unforeseen events. Students will discover the importance of physical wellness, as well as the other areas of the multidimensional wellness wheel. This course will require a fair amount of reading and writing, but the class period itself will be largely conducted as long walks around campus, where students will discuss challenging questions in small groups and individually reflect on critical topics.

CRN 4995, 4996 Outbreak - S. Bessette

This course will examine the evolution of and emergence of infectious disease. We will incorporate information from biology, anthropology, and public health. We will pay particular attention to the ethical issues raised by the health campaigns used to battle emerging disease around the world, which include public perceptions, politics, and the stigma that can result. Students will work on a simulation to “contain” a local outbreak.

CRN 5004, 5007 Urban Legends: Truths Behind the Stories We Tell - K. Weyant/C. Munde

All of us have heard stories that have been passed down from our friends. Sometimes, these are ghost stories, such as the vanishing hitchhiker story about a young woman who finds a ride with a sympathetic driver only to disappear. Sometimes, these stories involve alligators in city sewers or dangers in college dorms. Called urban legends, these stories are set in contemporary cultures and often reflect concerns and imagined dangers of specific time periods. In this course, students will examine various urban legends to determine their overall significances, meanings and perceived moral lessons.

CRN 5114 The Personality of Politics - F. Corapi

This course helps students understand the psychological origins and evolution of their own political views—specifically, conservatism and liberalism. After exploring partisan politics on a theoretical level, students will research their own “political genealogy.” They will think about all the potential sources of their views and interview individuals with both similar and opposite views to their own. The course will also explore the current state of political discourse in the United States and current movements to censure unpopular opinions. What role does political correctness play in our current political climate? How do the 24-hour news cycle and social media contribute to group polarization? The roots of extremism on both the right and left will be explored. Students will develop recommendations for how to improve political discourse in our world today.

CRN 5115 Redefining Feminism - R. O’Brian/S. Bessette

Don’t be afraid to say the “F” word; feminism, that is. This course seeks to explore the roots and meaning of feminism and feminisms. Through participatory learning, collaborative projects, critical thinking, and creative expression, students will engage with differences that cut across race, gender identities, class, and national origin. This course will stress the role of students as active co-producers of knowledge and it will require students to participate in in-class discussions, written work, and project-based learning. Students will engage with sources ranging from graphic novels, social media, journal articles, and readings from various sources. Additionally, students will be required to complete a creative final project that integrates research with campus life.

CRN 5116 Up Your Game! - E. Zeiders-Weber/J. Zeiders-Weber

Students will explore the history of gaming across cultures as a lens for examining the potential of games as mediators for social engagement, community cohesion, and individual growth. Students will play a variety of historical and modern tabletop games designed to encourage prosocial engagement and critical thought through cooperative gameplay and problem solving. The selected games will also expose students to various game mechanics and design. Based on research, course readings, and hands-on gameplay, students will collaborate to create and demonstrate gameplay for a tabletop game of their own design, ultimately answering the question: How do games make us better?

CATTARAUGUS COUNTY CAMPUS

CRN 4964 Beyond the Binary: LGBTQIA+ Expression and Identity - G. Rabb

The 21st century has seen an explosion of identities and manners of expression beyond the traditional male or female, gay or straight. Increasingly students and others identify as lesbian, gay, bisexual, trans, questioning, inter-sex, asexual, pan-sexual, resulting in confusion for the populations who identify as such and their friends, family, and society at large. This course is designed to help students understand who they are and how they fit into the world around them and how society could and should respond to the plethora of “new” identities based on the understanding of gender fluidity and related concepts. The course will take advantage of the instructor’s 30+ years as a gay activist and include potential guest speakers from around the country. Students will use LGBTQIA+ resources in our library as well as readings from various sources, including but not limited to books. The course will also consider the historical changes in expression and identity starting in the late 19th century through the present day.

CRN 4959 Contagion! -M. McCune

Students will learn how diseases have evolved over human history and the biological and social impacts of disease on human populations. Students will analyze the relationship between human behavior and diseases by focusing on contemporary public health problems related to antibiotic use and vaccination rates. Based on their research and analysis, students will make public policy suggestions about disease prevention globally and in the United States.

CRN 4960 In the News - C. Hinz

Do your instructors ever bring up topics in class that are in the news, but you don't have any knowledge about? Is your response, "I think I have heard about it, but I am not sure?" News is available through a lot of different mediums, but do you actually pay attention to or take advantage of what is available? We will discover together newsworthy events of local, national, and global concern while discerning appropriate sources for them. No "fake news" here. Students will follow their own topic of interest throughout the course and share their findings with the class each week and in a final project. Get ready to learn about what is going on all around us.

CRN 4961 Irish Arts and Cultures - J. Kubiak

In this course, students will examine how the issues and events pivotal to Ireland and Irish cultures are both represented and shaped by texts. The notion of "text" will be taken broadly to include literary and non-literary print text, visual arts, music, theatre, cinema, television, architecture, folk arts, and other expressions of self. The cultural, national, and historical contexts to be examined in light of these texts will include: Celtic and Gaelic origins, emigration, borderlands, the Irish language, religion, landscape, agriculture, post-colonialism, and globalization. Particular attention will be given to the cyclical relationships between contexts and texts (or life and art).

CRN 4962 Silent Women - D. Yerpe

100 years ago in the US, the movies were being invented with technology that was only some two decades old and evolving. This is the time of the suffragist and the 19th Amendment, the flapper, Prohibition, speakeasies, and bathtub gin. The movies grow up in these years, still silent until 1929, and according to film historians, more women are involved in writing, producing, and directing these movies than there have ever been since. In this course students will study the movies circa 1905-1929, the times they sprang from, and the women who created them. To better understand the process, students will create their own silent movie scene and decide who deserves the pre-1929 Academy Awards.

CRN 4965 The Triple Bottom Line - S. Bray

Packaging made from biodegradable mushrooms instead of Styrofoam. Toys that break down gender stereotypes. Innovative toilets that reduce disease in overcrowded cities. These are examples of social entrepreneurs creating businesses that make a profit and also positively impacting society and the environment. Companies that embody a triple bottom line philosophy work to solve some of the world's biggest social and economic challenges while also making money. Students in this course will study a variety of global concerns and generate a business idea that offers a creative solution through products or services designed to alleviate the suffering associated with global issues.

CRN 4963 Urban Legends: Truths Behind the Stories We Tell - K. Weyant

All of us have heard stories that have been passed down from our friends. Sometimes, these are ghost stories, such as the vanishing hitchhiker story about a young woman who finds a ride with a sympathetic driver only to disappear. Sometimes, these stories involve alligators in city sewers or dangers in college dorms. Called urban legends, these stories are set in contemporary cultures and often reflect concerns and imagined dangers of specific time periods. In this course, students will examine various urban legends to determine their overall significances, meanings and perceived moral lessons.

CRN 5089 What Would Florence Nightingale Say? - H. Burrell

Florence Nightingale has always been acclaimed as the founder of modern nursing. This journey in time will start at the beginning, researching the common medical practices of Florence's time. From there we will travel forward through history, identifying advances that have changed medical practices as Florence once knew. We will debate those changes and the positive and/or negative outcomes that have resulted. Our journey will end with a glimpse into the future and with what we propose medical practices might be. Along the way we will pause often to ask ourselves: What would Florence Nightingale say?

ONLINE

CRN 5126 21st-Century Cities - S. Bessette

For the first time in human history, more people live in cities than in rural areas. This process of urbanization has accelerated over the past decade or so, providing new and critical challenges for providing sustainable living conditions for cities around the world. Using the United Nations 2030 Sustainable Development Goals as a framework, we'll look at both the challenges and solutions for meeting these goals in cities locally, nationally, and globally. Here is a link to the Sustainable Development Goals: <https://www.un.org/sustainabledevelopment/sustainable-development-goals/>

CRN 5017 Digital Citizenship - C. Dunagan

If an employer were to conduct an online search, what would your digital profile reveal? Can ethics and civility be demonstrated in the online environment? How can you protect yourself and your digital identity? This course will explore these questions as students take a deeper look into the role technology plays in their lives and what it means to be a digital citizen. In this course, students will explore their social media use and examine the potential effects as aspiring professionals. In addition, students will create an electronic portfolio they will use to collect and curate their digital archives from their academic lives as they transition to the professional workplace.

CRN 4966 Race to Wellness - J. Visbisky

This course will explore an understanding of the broader health issues facing our current society. We will explore a range of topics associated with health, such as: population growth, food security, affordable healthcare, environmental disease (cancer), emerging diseases (virus outbreaks), food-borne illness, hazardous waste, and human health risk assessments. As a semester project, students will choose a current health issue and create a public service announcement that represents the problem, focusing on possible interventions and solutions.

Honors Program

JCC HONORS PROGRAM

JCC's Honors Program provides challenging curriculum, supportive services, and special enrichment opportunities for highly motivated students who have demonstrated their academic ability. Honors students enroll in special honors-designated courses, engage in co-curricular activities, and complete projects that synthesize academic and real-world experiences. Students who complete the honors program requirements receive an honors citation on their transcripts along with other special graduation recognition and student privileges.

Honors courses are developed by faculty who are dedicated to providing additional rigor and support for honors students. The courses must have the following attributes: a focus on greater depth and breadth of subject matter; an interdisciplinary approach; strong attention to writing and critical thinking; and a strong focus on values and ethics.

New students with a 90% high school average who are eligible for MAT 1540 are eligible for the Honors Program. Returning students who are eligible to take a college-level English without support courses and MAT 1540 and have a GPA of 3.5 or better after 12 credit hours are honors eligible.

To earn JCC's honors citation students must successfully complete a three-credit hour honors symposium course offered as well as two one-credit hour honors project courses. The symposium course allows students to approach a global topic from diverse perspectives.

FALL 2020 SYMPOSIUM COURSE:

Artificial Intelligence, Robots, and Black Swans - the Economic, Social, Business, and Lifestyle Impacts of Technological Change

Students will use historical research to determine the impact of previous major technological changes, such as the introduction of the automobile and the internet, on then existing industries and lifestyles, and determine through individual research current attitudes regarding artificial intelligence and robots. Students will attempt to create autonomous robots to better understand the current challenges involved in developing robots, self-driving vehicles, and other devices controlled by artificial intelligence. Students will be expected to offer plans to ease this technology into society with minimal disruptions and displacements utilizing timelines and information from their research. Prerequisite/corequisite: ENG 1510.

The Fall 2020 honors symposium course, dependent on enrollment, is tentatively scheduled for:

Jamestown	5136	CSC	7514	3	A.I. Robots & Black Swans	Pratt, J.	11:00 AM-11:50 AM	.M.W.F	HULT163	ITV	F2F	8/24	12/18

*Honors students who choose to defer their symposium course enrollment to the Spring 2021 semester may have the option of enrolling in this symposium course: **Defending Against Hackers**. (This course offering will be dependent on sufficient enrollment.)*

Honors students are required to successfully complete **two one-credit, project-based honors courses** which are related to courses in which they are currently enrolled or have recently completed. Each project must include some form of applied learning: fieldwork, internship, service learning, innovative/creative project, and/or undergraduate research. After registering, the students will be guided by the honors program coordinator and their advisors to identify a course to which to link the project and an instructor. Visit www.sunyjc.edu/honors-program for project requirements and ideas. Students and instructors are advised to complete learning contracts for fall semester project-based courses by **September 23, 2020**.

New and continuing honors students may register for these honors project courses:

Online Courses www.sunyjcc.edu/online

Before Choosing an Online Course

- You must have a reliable Internet connection, computer access, and a valid email address. High speed access is highly preferred, but it is not required. Mobile devices are not recommended as the primary means to take an online course.
- Online courses rely heavily on reading, writing, and engaging in online discussions.

How Does Online Learning Work?

Courses follow a regular semester schedule with assignments due each week. Courses have specific starting and ending dates which must be followed. JCC recommends that you log in and participate 3-4 times a week to complete assignments and activities, as well as interact with your professor and classmates. During the week, you log in on days and times convenient to you. You participate in the course by reading the required textbooks and online material, asking questions, posting discussion responses, submitting assignments, or taking quizzes as required by each professor. Textbooks are required and can be purchased from the college store website: campusstore.sunyjcc.edu one week prior to class start date. Your professor posts information that explains requirements, expectations, the course schedule, and how you are evaluated.

Online Courses

Online courses are offered on JCC's learning management system.

- Access your courses by selecting the My JCC link at www.sunyjcc.edu.
 - Select courses—Blackboard.
 - Follow the login directions.
 - Complete the Student Orientation found under the Home tab; then click on the Orientation tab.
 - On the Home tab, select your course from the My Courses module.
- Your online course is available one week prior to scheduled start date. Login at that time and verify your ability to access the course.

If you cannot find your course online or have problems logging in, immediately contact the JCC Help Desk at jchelpdesk@mail.sunyjcc.edu. or 1.800.388.8557, ext. 1122. **It is your responsibility to start class on time.**

You have a JCC email account for official college communications. Access it at <http://www.sunyjcc.edu/myjcc> and select Email.

Online/Hybrid Courses www.sunyjcc.edu/online

Blended (Hybrid) Courses - All blended Hybrid courses are designated WBO

Access the online portion through Blackboard on the My JCC link at www.sunyjcc.edu.

Blended or hybrid courses combine online work and face-to-face classroom meetings. You must have Internet access to participate in these courses since a portion of the course takes place online. **The online portion of the course opens one week before the scheduled class start date.** Visit www.sunyjcc.edu/online for more information on blended (hybrid) courses at JCC.

Follow these steps to enroll:

- Register for the course with JCC.
- Access your course(s) by selecting the My JCC link at www.sunyjcc.edu.
- Select courses—Blackboard.
- Follow the login directions.
- Complete the Student Orientation found under the Home tab; then click on the Orientation tab.
- If you cannot find your course online or have problems logging in, immediately contact jchelpdesk@mail.sunyjcc.edu or call JCC's help desk, 1.800.388.8557, ext. 1122.

It is your responsibility to start class on time.

Social Sciences Distribution: any 3-credit course in ECO, POL, PSY, or SOC

Quantitative Literacy Distribution: MAE 2510, any 3-credit or 4-credit college-level MAT course

Attention Full-time JCC Students: A special agreement allows students registered for 12 or more JCC credits to take one additional course free of charge at St. Bonaventure each semester on a *space available basis* provided the same course is not being offered at JCC's Cattaraugus County Campus. Students are responsible for any lab fees associated with the courses and should note that St. Bonaventure's semester calendar may vary from that of JCC. To explore St. Bonaventure's offerings, visit www.sbu.edu. Contact your advisor or JCC's Counseling and Career Center for additional information.

6 Reasons you should include an **INTERNSHIP IN YOUR SCHEDULE**

BESIDES GETTING A FOOT IN THE DOOR WITH A POTENTIAL EMPLOYER AND LOOKING GOOD ON A RÉSUMÉ, INTERNSHIPS HAVE OTHER ADVANTAGES:

1. “TEST DRIVING” A CAREER

(Would I be happier in marketing or advertising? Am I more comfortable working with patients or in a lab?)

2. EXPANDING YOUR NETWORK

3. ESTABLISHING RELATIONSHIPS WITH MENTORS

4. LEARNING ABOUT THE FIELD’S CULTURE AND ETIQUETTE

(Are clients addressed by their first name? Are jeans appropriate for “Casual Friday”?)

5. BUILDING NEW SKILLS

6. GAINING A “REAL WORLD” PERSPECTIVE ON AN OCCUPATION

(How much overtime do employees really work? How much time is spent behind a desk versus in the field?)

Talk with your advisor about internship possibilities and visit www.sunyjcc.edu/internships to learn more.

Registration & Advisement Information

Ongoing advisement and registration for continuing and readmitted full- and part-time students. New student advisement and registration begins April 20.

- Full-time students must be advised prior to registration
- Part-time students can register at the main office on a walk-in basis March 30-August 21

Students, please note: If you are enrolled in a JCC course, you may be required to access the Internet and use software applications on a regular basis. Computers with Internet access are available at all JCC locations.

Career Advantage: A Program Designed for Busy Adults

The Career Advantage program is ideal if you have work and/or family commitments and may not otherwise be able to complete a traditional degree program. You can complete your associate degree in two years attending classes two nights per week with online work in between classes. Career Advantage courses run full term for 15 weeks, with one online course spanning the entire semester. A set two-year program schedule includes summer courses and makes it easy to plan your life and college commitments.

Fall 2020 Career Advantage program cohorts are forming in these locations:

Cattaraugus Campus: A.A.S. - Human Services | A.A.S. - Health Information Technology

Jamestown Campus: A.A.S. - Human Services | A.A.S. - Health Information Technology

North County Center: A.A.S. - Human Services | A.A.S. - Health Information Technology

For more information visit: www.sunyjc.edu/academics/career-advantage

Apply online at: <http://www.sunyjc.edu/admissions/apply> and select your Career Advantage cohort

Current students who would like to participate in Career Advantage should contact their academic advisor for information.

Applied Learning

Applied learning is learning by doing. It's taking what students are taught in the classroom and putting it into practice, whether that's through an internship, working and learning abroad, or performing original research. The benefits are as obvious as they are endless. Students are more engaged with schoolwork, they gain the real-world experience that more and more employers are looking for, students are able to network, and much more.

Applied learning can take a variety of forms, including:

- Teaching English in Japan, China, or Spain
- Studying abroad
- Enrolling in an EL-intensive course or program of study
- Completing a credit-bearing or non-credit bearing internship
- Joining an active club

Contact Annie Chartrand at 716.338.1381 to explore more applied learning opportunities.

Immunization & Meningococcal Disease Information

According to New York State Public Health Law (NYS PHL) §2167, JCC is required to maintain a record of the following for each student: **A response to receipt of meningococcal disease and vaccine information** signed by the student or student's parent or guardian. This must include information on the availability of meningococcal meningitis vaccine **and** either 1) **a record of meningococcal meningitis immunization** within the past 5 years, or 2) **an acknowledgement of meningococcal disease risks and refusal of meningococcal meningitis immunization** signed by the student or student's parent or guardian.

Complete JCC's Certificate of Immunization/Acknowledgement of Meningitis Information form, available at the JCC health center on the campus you are attending or downloaded from www.sunyjcc.edu. According to New York State Public Health Law, no institution shall permit any student to attend the institution in excess of 30 days without complying with this law. The cost of the vaccine may be covered by the individual's health insurance policy.

To learn more about meningitis and the vaccine, contact the JCC health center and/or your physician. Additional information about the disease is available at the New York State Health Department (www.health.state.ny.us), the Centers for Disease Control and Prevention (CDC) (www.cdc.gov/ncidod/dbmd/diseaseinfo), and the American College Health Association (ACHA) (www.acha.org).

Students born on or after January 1, 1957: New York State Public Health Law 2165 requires post-secondary students attending colleges and universities to demonstrate proof of immunity to measles, mumps, and rubella. This law applies to anyone born January 1, 1957 or later who is taking six or more semester hours. Failure to do so will result in suspension and a \$25 fine. JCC's Certificate of Immunization/Acknowledgement of Meningitis Information form should be signed by a physician, unless you are attaching other legal proofs such as school records or county clinic records. For questions regarding immunizations, contact the campus health center at the site you are attending:

OFFICE USE ONLY	
County	_____ / _____
Town	_____ / _____
Months	_____ / _____
Semester	FALL 2020 _____
Reg. #	_____

Please follow directions carefully:

- Provide all information requested. Form must be signed, notarized, and submitted to the JCC business office.
- Legal address should list street, road, or route number. RDs and box numbers are not sufficient.
- All Chautauqua County residents must provide township of residence.
- Name of property owner is required by your county treasurer.
- Students must account for at least one year of residency in New York state. Accounts that do not have this form on file will be assessed non-resident status.
- New York state law requires students to file a new certificate of residency every year.

For tuition purposes, New York residency means that you have lived in this state as a permanent resident for 12 months prior to the start of the semester. If you have not lived in New York state for 12 consecutive months, contact the business office as soon as possible. New York State Education Law 6305 requires JCC to have a current certificate of residence on record for your student account every academic year. **Please complete this form no earlier than 60 days prior to the start of the semester.** You can have your signature notarized at your campus business office in person with proof of identification.

If you live in Chautauqua County, Allegany County, or Cattaraugus County, complete the top portion of the form and return your notarized application to JCC, PO Box 20, Jamestown, NY 14702-0020. The college will have your certificate certified through the business office. **If you live in other counties in New York state,** access JCC's website, www.sunyjcc.edu, for instructions from your county treasurer's office. Forward the original certified affidavit issued to you from your county treasurer's office to JCC's business office. **The original signed form must be mailed to JCC.**
