

Liberal Arts & Sciences: Adolescence Education

curriculum code: 1804 | HEGIS code: 5649

minimum credit hours required: 60

JCC's teacher education transfer degree programs provide students with knowledge, skills, theory, and hands-on educational experiences that will prepare them for transfer to a four-year institution with New York state teacher certification authority. Graduates will be able to transfer with full credit and junior status into participating SUNY four-year teacher education programs. Students will begin fulfilling their liberal arts specialization requirements along with courses in education theory and practice. Specialization areas include: biology, chemistry, earth science, English, world language, general science, history/social studies, mathematics, and physics.

This program is designed to prepare students for transfer to classroom teacher preparation programs in the areas of adolescence education (grades 7-12 subject area) at four-year institutions with New York state teacher certification authority. Students who plan carefully can normally be expected to transfer to a four-year institution as juniors. The transfer institutions may have differing requirements. Students should plan their programs with a transfer counselor and an academic advisor as soon as possible and preferably before beginning their first semester at JCC.

IMPORTANT POINTS:

*Some courses may meet additional program requirements which may result in additional elective availability.

Students planning to transfer should work closely with a transfer counselor and an academic advisor. The degree requirements may be modified depending on the requirements of the specific transfer institution. Many transfer institutions also have specific overall GPA requirements.

Students planning to transfer to a four-year SUNY institution to complete their teacher education baccalaureate degree must complete the entire SUNY General Education Requirements (SUNY-GER) plus an additional three credits of foreign language. Students must work closely with an academic advisor when choosing the courses to fulfill SUNY General Education Requirements.

EDU 1510, 2210, and 2460 all include a field component. The number of field hours varies by course. It is possible to achieve a total of 165 field hours through JCC coursework.
