JCC Achieves Tree Campus USA Designation

The Arbor Day Foundation has designated JCC as a Tree Campus USA for the sixth consecutive year.

Tree Campus USA is a national program created in 2008 to honor colleges and universities for effective campus forest management and for engaging staff and students in conservation goals. Toyota, which helped launch the program, continues to provide financial support for Tree Campus USA.

JCC, the first community college in New York state to earn the Tree Campus USA designation, achieved the title by meeting five standards, which include maintaining a tree advisory committee, a campus tree care plan, dedicated annual expenditures toward trees, an Arbor Day observance and student service-learning projects.

“Students are eager to volunteer in their communities and become better stewards of the environment,” said Matt Harris9 chief executive of the Arbor Day Foundation. “Participating in Tree Campus USA sets a fine example for other colleges and universities, while helping to create a healthier planet for all of us.”

The Arbor Day Foundation and Toyota have helped campuses throughout the country plant hundreds of thousands of trees, and Tree Campus USA colleges and universities invested over $29 million in campus forest management last year. More information about the program is available at arborday.org/TreeCampusUSA.

The Arbor Day Foundation is a nonprofit conservation and education organization of one million members with the mission to inspire people to plant, nurture, and celebrate trees. More information can be found at arborday.org.

Five Reasons Why You Should Prepare for Advisement

You mean I shouldn’t just show up?

The fall master schedule is available online March 20. Hard copies of the schedule will be available around April 1.

April 6 marks the beginning of advisement. Seeking advisement early is essential. It is an opportunity to see where you have been academically and where you need to go to reach your goals. The responsibility for effective advisement rests with both the advisor and you, the student.

The benefits of being prepared for advisement include:

- Creating your schedule ahead of time means you’re able choose your preferred class times and courses.
- You gain a better understanding of your degree requirements and what courses you need to complete your degree.
- If there are potential issues with transferring your credits to a four-year college, you’re able to spot – and fix – them early.
- Registration goes much smoother.
- And, most importantly, you have an opportunity to ask questions about your academic path.

Before meeting with your advisor, visit sunyjcc.edu/advising for information and resources. Be sure to check your JCC transcript via Banner to review your progress during the event from representatives of SUNY Environmental Science and Forestry, SUNY Fredonia, University of Pittsburgh at Bradford, and Utica College.
