Experiential Learning Opportunities

Credit-bearing Experiential Learning Opportunities

Experiential learning is by doing. It’s taking what students are taught in the classroom and putting it into practice, whether that’s through an internship, working and learning abroad, or performing original research. The benefits are as obvious as they are endless. Students are more engaged with schoolwork, they gain the real-world experience that employers are looking for, students are able to network, and more.

Experiential learning can take a variety of forms, including:
Teaching English in Japan, China, or Spain • Studying abroad • Enrolling in an EL-intensive course or program of study
Completing a credit-bearing or non-credit bearing internship • Joining an active club

Contact Felix Muzza, Coordinator of Experiential Learning, at 716.338.1381 for more opportunities or information.
