

This degree program is designed to prepare students for transfer into baccalaureate programs in social work, human services, counseling, psychology, early care and education, and other related fields. While providing a foundation of knowledge in human services, students will choose electives that match their career goals in fields such as mental health; early care and education; gerontology; alcohol and chemical dependency; and developmental, cognitive, and physical disabilities and rehabilitation services. Students will prepare for transfer and employment by completing a one-semester internship and additional liberal arts and sciences electives.

IMPORTANT POINTS:

- Students must be willing to obtain and pay for any necessary physical or medical examinations or tests which are required by some internship agencies.
- Enrollment in the human services program does not guarantee acceptance into field placements in the human services program. A criminal history or indication of child maltreatment may jeopardize the student's acceptance into a field placement agency.
- Students must complete an application for internship and approval of the application is required for all field placement courses in human services. Some internship agencies require FBI or Child Abuse Registry checks. These processes can be lengthy and may require up to four months in order for approval to be obtained prior to placement.
